## Description

Have you ever wondered what's going on inside the head of an expert? This is your chance to see how an expert bridge player thinks about the hand! This new class will take place every Friday morning from 10 am until noon. In this interactive session, we'll play several hands and Greg will show you how to think like a pro. The emphasis of these sessions will be on risk-reward bidding, declarer play, counting the suits and defense. This course is recommended for intermediate players or strong advanced beginners.
